

## NEWSLETTER #3

Welcome to the third COSERE Project Newsletter!

Progress on the COSERE project continues! Over the past several months we have been hard at work researching and writing all about the topic of collegial support in education. As the journey toward the end of the project continues, our Handbook on Support for Collegiality in Schools is also nearing completion. In this newsletter we will detail our most recent learning visit to Palermo in Sicily, as well as what the future brings!

## Learning Visit #3: Palermo, Sicily

**Pictured:** Our participants at Danilo Dolci’s Scuola Mirto

Our fantastic partner organisation CESIE of Palermo, Sicily hosted the third project learning visit. Participants travelled from all over Europe to study and learn from the experiences of key stakeholders in the Italian education system.

### Discussions included:

- Non-formal pedagogical approaches such as philosophical reflection activities, forum theatre, and the maieutic method
- Implementation of collegial support plans and programmes at the municipal and national levels

A special highlight was the opportunity to visit a local school that is a true leader in collegial support, Danilo Dolci’s Scuola Mirto. A true testament to the vision of its founder, this nontraditional school is an inspiration to anyone interested in pursuing an ambitious educational dream.

**Collegiality:**  
a friendly relationship between people who work together or do the same job
